Raison d'être and responsibilities

The National Film Board of Canada (NFB) was created by an Act of Parliament in 1939 and is a federal agency within the Canadian Heritage portfolio. The NFB's mandate is to produce and distribute original and innovative audiovisual works that add to our understanding of the issues facing Canadians and raise awareness of Canadian values and viewpoints across the country and around the world. Over the decades, it has become the standard for audiovisual innovation in Canada and plays an important role by highlighting the changes and key events in Canadian society.

As a producer and distributor of audiovisual works, the NFB provides a unique perspective on Canada's cultural wealth and diversity. The NFB explores contemporary social issues through point-of-view documentaries, auteur animation and new-media content. Over the years, the NFB has played an important role in marking the major changes and events taking place in Canadian society. A brief description of the agency's activities for the current fiscal year can be found in the [2015-16 Departmental Performance Report](#).

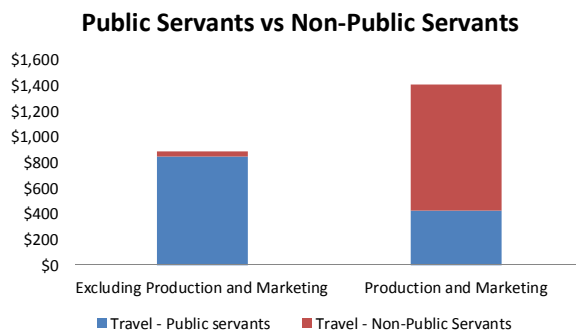

As Canada's public producer and distributor of audiovisual works, the NFB documents the history and culture of the nation for both domestic and international audiences. Over the past 75 years, the NFB has produced more than 13,000 works and received more than 5,000 awards, inspiring and influencing generations of filmmakers in Canada and across the globe. Its audiovisual works offer special insight into the diversity and vitality of our culture and are an essential part of our national heritage.
